INDEPENDENT AUDITOR'S REPORT

To the City Mayor
and Board of Trustees
City of Ottawa, Illinois

We have audited the accompanying financial statements of governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Ottawa, Illinois, (the City) as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise City of Ottawa, Illinois' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Firefighters' Pension Fund or the Police Pension Fund of the City. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Firefighters' Pension Fund and the Police Pension Fund is based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ottawa, Illinois, as of April 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

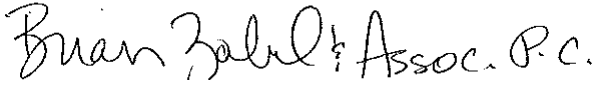

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules, and supplemental data, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The supplemental data section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 11, 2021, on our consideration of the City of Ottawa, Illinois' internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Ottawa, Illinois' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Ottawa, Illinois' internal control over financial reporting and compliance.

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

The following discussion and analysis is intended as a review of significant factors affecting the financial condition and results of financial activities of the City of Ottawa for the fiscal year ending April 30, 2020. The discussion should be read in conjunction with the City's basic financial statements which are presented herein, and begin on page 4.

USING THIS REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 4 – 6) provide information about the activities of the City as a whole and present an overall view of the City's finances. Fund financial statements start on page 7. For governmental activities, these statements tell how these services were financed in the short-term as well as what funds remain for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the City as a Whole **The Statement of Net Position and the Statement of Activities**

Our analysis of the City as a whole begins on page MD&A 1. These statements are intended to clearly represent the current status of the City's finances and the change in assets from the prior fiscal year ended April 30, 2019 to the current fiscal year ended April 30, 2020. The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities. These statements include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. One can consider the City's net position – the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources – as one way to measure the City's financial health. Over time, increases or decreases in the City's net position are an indicator of whether its financial health is improving or deteriorating. However, one should also consider both financial and non-financial factors such as changes in the City's equalized assessed valuation (EAV) and the condition of the City's infrastructure to assess the overall health of the City. The City's general management practices particularly relating the budgetary process, management of its debt burden and consequent impact to future budgets, ability to manage through various economic cycles, its pension funding ratios and postemployment benefit liabilities, ability to attract new business, and diversification of employment sectors are all factors one might reasonably consider when assessing the City's financial health, some of which are in the City's direct control, and some which are not.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities.

- Governmental activities – Most of the City's basic services are reported here, including the police, fire and ambulance, general administration, streets and parks. Real estate and other taxes, franchise fees, fines and state and federal grants finance most of these activities.
- Business-type activities – The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's water and wastewater treatment systems are reported here. In prior audits, wastewater treatment was referred to as sewer, or the sewerage treatment function.

Reporting the City's Most Significant Funds Fund Financial Statements

Our analysis of the City's major funds begins on page MD&A 10. The fund financial statements begin on page 7 and provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money. The City's two kinds of funds – governmental and proprietary – use different accounting approaches.

- Governmental funds – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.
- Proprietary funds – When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's waterworks and wastewater fund is included in the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows.

CITY OF OTTAWA, ILLINOIS
MANAGEMENT’S DISCUSSION AND ANALYSIS
 Fiscal Year Ending April 30, 2020

The City as Trustee – Reporting the City’s Fiduciary Responsibilities

The City is the trustee, or *fiduciary*, for its employees’ pension plans. It is also responsible for other assets that because of a trust arrangement can be used only for the trust beneficiaries. All of the City’s fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on pages 18 and 19. We exclude these activities from the City’s other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

The City's financial statements for fiscal year ended April 30, 2020 continued to incorporate the three major changes to the City's financial statement reporting which were first incorporated for the fiscal year ended April 30, 2019, so year to year reporting methodology is more consistent comparing fiscal years ending April 30, 2019 and 2020. The changes noted that were incorporated last year, fiscal year ending April 30, 2019, are detailed in the following. First were independent actuarial reports for both the Ottawa Police Pension Fund and the Ottawa Firefighters' Pension Fund that are compliant with Governmental Accounting Standards Board (GASB) statements 67 and 68. The City utilizes actuarial valuation reports prepared by the Illinois Department of Insurance (DOI) to fund both the Police and Firefighter pensions. The DOI valuations utilize the "Projected Unit Credit" costing method to establish plan liabilities. The GASB 67/68 compliant liability costing methodology is the "Entry Age Normal" method. While both methods potentially determine an underfunded liability, the amount of the underfunded liability can be significantly different depending upon which method is utilized.

The State of Illinois statutory language requires an application of the Projected Unit Credit method, and the City has provided funding based upon this statutory methodology, however this method is not GASB compliant. An Entry Age Normal method front loads the employer's pension liability by recognizing a portion of the pension benefits earned in the future, specifically the pension benefit that will be earned by a worker continuing to accrue additional pension benefits for work performed after the valuation date. The Projected Unit Credit method, while actuarially estimating the benefit of potential future wage increases, does not factor in liabilities for future work credit. The Entry Age Normal costing method therefore reports a higher accrued liability at any point in time, and therefore a lower funding ratio. At the actual point of retirement, each method will calculate a similar liability. The City has reported within the notes to the financials the funding levels of each of its pensions. Consequent to the GASB compliant pension actuarial reports for fiscal year ending April 30, 2019, the financial reports recorded and recognized a \$48.5 million net pension liability. For fiscal year ending April 30, 2020 the net pension liability for the three City supported funds is \$51.7 million. The City continues to fund its pension obligations at the actuarial recommended levels. Of the three funds, contrasting fiscal year ending April 30, 2020 to fiscal year ending April 30, 2019, the net pension liability for IMRF decreased by \$2.2 million, the Police Pension net liability increased by \$60 thousand, and the Firefighter's Pension net pension liability increased by \$5.3 million.

The second significant change from prior year reporting in the financials for fiscal year ending April 30, 2019 was an independently prepared actuarial report for the City's postretirement health plan which is in conformance with GASB statements 74 and 75 for Other Post-Employment Benefits (OPEB). The City's total OPEB liability is an unfunded obligation, with payments made as expenses are incurred. There is no separate trust dedicated exclusively to the payment of OPEB benefits, but rather, the City plans for the obligation in its normal budgeting and appropriation process, and pays the expenses as billed and incurred. City retirees pay 25% of the cost of their health insurance, until Medicare eligible, as well as that of all eligible dependants, with the City covering the remainder of the cost. The City pays 100% of the cost of Medicare supplement coverage for all Medicare eligible retirees and spouses.

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

The GASB 74/75 compliant report reflects a net OPEB liability of \$34.3 million for fiscal year ended April 30, 2019 which was recognized and incorporated in the financial statements. For fiscal year ended April 30, 2020 the net OPEB liability is \$46.9 million.

The third significant change in the City's Statement of Net Position was the recognition of both deferred outflows of resources as well as deferred inflows of resources. These factors recognize the consumption of assets in the current period that are applicable to a future period, in the case of deferred outflows. Similarly, deferred inflows of resources recognize the acquisition of assets that are applicable to a future reporting period. For fiscal year ending April 30, 2019 the effect of these two additions to the statement of net position, \$9.3 million in outflows and \$12.5 million in inflows, was a net position decrease of \$3.3 million. For fiscal year ending April 30, 2020 there were \$23.2 million of deferred outflows and \$17.8 million of deferred inflows, resulting in a net position increase of \$5.4 million from the inclusion of deferred outflows and inflows.

Overall, including the reporting modifications noted above the City's net position decreased to \$3.9 million as of April 30, 2020, from \$5.5 million as of April 30, 2019, a decline of \$1.6 million. Again, this has created more consistency in year to year reporting, as the inclusion last year of the items noted above, and a prior period restatement, represented an \$86.1 million decrease in the City's total net position. Of those amounts, \$43.0 million was accounted for as a prior period restatement. Overall, from fiscal year ended April 30, 2018 to fiscal year ended April 30, 2019 the City's net assets decreased by \$85.6 million, with ending assets of \$5.4 million and \$90.9 million, respectively for fiscal year ending April 30, 2019, and April 30, 2018. The following tables reflect the costs of the City's largest programs. The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

Governmental Activities

Program revenues for governmental services in the fiscal year ended April 30, 2020 were decreased from those for the prior year. Comparing fiscal year ended April 30, 2020 to fiscal year ended April 30, 2019, overall charges for services decreased by 8.2%, to \$3.8 million from \$4.1 million in the prior year. Operating grants and contributions decreased by 35.8%, \$201 fiscal year ending April 30, 2020, contrasted to \$313 thousand in fiscal year ending April 30, 2019. Capital grants and contributions decreased by increased by 8.7%, \$1.3 million in fiscal year ending April 30, 2020 and \$1.4 million in fiscal year ending April 30, 2019.

Operationally, the *total* cost of all governmental activities for the fiscal year ended April 30, 2020 was \$28.3 million. In fiscal year ended April 30, 2019, in contrast, it was \$67.1 million, however, this was affected in the 2019 fiscal year report by the initial inclusion in Public Safety expense of the Police and Firefighter Pension liabilities noted earlier of \$48.5 million, and in General Government the net OPEB calculated liability of \$34.3 million.

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

The City of Ottawa operates the North Central Area Transit (NCAT), a public transportation bus service, as an accommodation to its citizens and other passengers. This special revenue category is included in the general category of Public Works, Cultural, and Recreation. The service operates at a profit.

Normal salary and wages paid for governmental activities increased by \$148 thousand which represents a 1.9% increase, however, total wages paid for governmental activities increased by \$383 thousand, or 4.7%, due to primarily to a \$234 thousand increase in overtime pay.

Health insurance claims increased from the prior year, by \$235 thousand, however total health insurance expenses net of employee premium payments decreased by 2.8%, due primarily to a \$200 thousand contribution from the water and wastewater department for employees covered in those departments. While employees pay 20% of the cost of the plan, the City is self-insured, and the 20% employee contribution is based upon an expectation of expense which at times will not conform to actual results and claim experience.

The health plan direct and variable expenses, net of employee contributions and stop loss reimbursements, was \$3.2 million for the period ending April 30, 2020, as compared to \$3.2 million for the period ending April 30, 2019, \$2.8 million for the period ending April 30, 2018, \$2.5 million for the period ending April 30, 2017, and \$2.6 million for the period ending April 30, 2016. The City's self-insured health plan utilizes a third-party for administrative services, and direct re-insurance placement to protect against unusually high individual or aggregate claims. Therefore, the City incurs fixed costs which include stop-loss premiums and administrative fees, as well as variable costs, the claims expense, which is the most significant element of the overall expense. The self-insured program is intended to allow the City to reduce its expenses in years in which claims are less than expected or customary. The City has the cash flow capacity to effectively manage the fluctuations in claim expense from year to year, and the re-insurance protection from excessive outflows in any particular plan year, thereby retaining the financial benefit when claim expenses are favorable. The City has also attempted to control this expense and align the interests of the City and its employees through direct employee contributions, which for the respective periods as noted above was 20% of the conventionally equivalent medical rate, or premium equivalent for employee coverage as well as employee plus dependent coverage. Retirees pay 25% of the premium for retiree coverage.

The City maintains defined benefit pension plans for regular employees, funding three separate plans. The total sources of funding for each are City contributions, direct participant contributions, and investment performance. The plan year valuations for the Police and Firefighters' pension are as of April 30 of each year, and for the Illinois Municipal Retirement Fund (IMRF), December 31 of each year. As noted earlier, the funding methodology for the Police and Firefighter Pensions utilized by the City is based upon the Projected Unit Credit method which is actuarially determined and statutorily relevant for required contribution levels. The actuarial information included in the financials for fiscal year ended April 30, 2020 and April 30, 2019 utilizes the Entry Age Normal liability costing method. The Entry Age Normal

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

method results in a liability that is in excess of that determined by the Projected Unit Credit method. The City endeavors to fund each of its pensions at the actuarial recommended amount. In some circumstances that recommended data has been unavailable at the time of the annual levy process. The funding ratio of Police and Firefighters pension funds utilizing the Projected Unit Credit method of calculating liabilities are as follows: the Police Pension Fund as of April 30, 2020 was 59% funded, as of April 30, 2019 was 62% funded, and as of April 30, 2018 it was funded at 64%; and the Firefighter's Pension Fund had a funding level of 37% as of April 30, 2020, 37% as of April 30, 2019, and 38% as of April 30, 2018. The City of Ottawa consistently contributes at the actuarially suggested amounts and both the police and firefighter's contribute at their statutorily determined percentage of pensionable compensation. The actuarial reports for the fiscal year ending April 30, 2020 and April 30, 2019, and included in these financials utilizing the Entry Age Normal liability calculation determines the funding level for the Police Pension for fiscal year end April 30, 2020 to be 52.12%, as contrasted to the Projected Unit Credit method at 59%, and as of April 30, 2019 to be 52.60%, as contrasted to the Projected Unit Credit method at 62%; for the Firefighters' Pension for the fiscal year end April 30, 2020 to be 29.67%, as contrasted to the Projected Unit Credit method at 37%, and as of April 30, 2019 to be 33.69% as contrasted to 37% by the Projected Unit Credit method.

40 Illinois Compiled Statutes (ILCS) 5/3-125(a) requires municipalities to achieve 90% funding of the total actuarial liabilities of Police and Fire Pensions by the end of the municipal fiscal year 2040. In 2017 actuarial assumptions were modified by the Illinois Department of Insurance that reduced the interest rate utilized in the actuarial calculation as well as adjusting the mortality tables and assumptions regarding service related deaths. Consequently, this has had an effect on the level of projected underfunding of the pensions which is being amortized over time to reach compliance with the mandated funding levels required.

IMRF which covers employees other than those covered by the Police and Firefighter Pensions, utilizes an entry age normal methodology for calculation of plan liabilities. IMRF's measurement date is as of December 31 of each year. The most recent data available, as of December 31, 2019 determines a net funding position of 98.11%, compared to December 31, 2018 at 88.15%, and December 31, 2017 of 100.24%. The City has contributed at or above the actuarially determined contribution level in each of the years noted above.

Effective in fiscal year 2016 the Governmental Accounting Standards Board (GASB) promulgated a new reporting format for pension funds to be compliant with generally accepted accounting principles (GAAP). The required disclosure now provides for a range of liabilities calculated using a single discount rate as well as a rate both 1% lower and 1% greater than the single standard rate to provide a sensitivity analysis for rate changes. The resulting range of net liability levels projected by this methodology for the IMRF as of December 31, 2019 is \$3.1 million to negative net liability or net asset level of \$1.7 million, with a single discount rate net liability level at \$437 thousand. As of December 31, 2018, this range for IMRF was \$5.2 million to \$490 thousand, with the single discount rate net liability level at \$2.6 million. For the Firefighters' Pension as of April 30, 2020, the range is a net liability of \$39.1 million to \$26.1 million, with \$31.8 million at the current rate. As of April 30, 2019, the Firefighters' Pension

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

has a range of a net liability of \$32.6 million to \$21.6 million, with \$26.5 million at the current rate. The Police Pension net liability as of April 30, 2020 ranged from \$26.6 million to \$13.8 million, with \$19.4 million at the current rate. As of April 30, 2019 the Police Pension ranged from \$26.7 million to \$13.5 million, with \$19.4 million at the current rate. Note that the current discount rate utilized in the three pension calculations noted above, is different for each. For IMRF the current discount rate utilized is 7.25%, for the Police Pension 6.39%, and for the Firefighters' Pension 5.40%. A lower current rate results in a greater expected liability.

General Revenues to support governmental activities, which includes taxes, intergovernmental transfers (excluding City inter-fund transfers), and investment income, increased by increased by 7.6% for the fiscal year ending April 30, 2020 as compared to an increase of 8.1% for the fiscal year ending April 30, 2019. Total general revenues to support governmental activities (excluding City inter-fund transfers) were \$25.4 million, compared to \$23.6 million and \$21.8 million for the periods ending April 30, 2019 and April 30, 2018, respectively.

Property taxes and Sales and Use taxes are the largest sources of general revenue for the City, in combination accounting for 69.8% of total general revenues from governmental activities (exclusive of City inter-fund transfers) for the fiscal year ended April 30, 2020, 73.1% of total general revenues from governmental activities (exclusive of City inter-fund transfers) for the fiscal year ended April 30, 2019 and 75.4% for the fiscal year ended April 30, 2018. Overall, property tax revenues increased by \$159 thousand, or 1.5% in the fiscal year ending April 30, 2020, increased by \$470 thousand, or 4.5% in the fiscal year ending April 30, 2019, and increased by \$332 thousand or 3.3% in fiscal year ending April 30, 2018.

The City's equalized assessed valuation (EAV) of the property subject to the City's annual tax levy, which is more fully discussed hereafter, increased for the sixth straight year after previous declines. Property taxes increased by \$159 thousand in fiscal year ended April 30, 2020, increasing to \$11.0 million from \$10.8 million the year before. Sales and Use taxes increased by \$305 thousand, to \$6.8 million, or 4.7%, after increasing by \$321 thousand, 3.2%, to \$6.5 million for the fiscal year ended April 30, 2019. Property tax receipts include general corporate revenues, as well as revenues allocable to various Tax Increment Financing District (TIF) funds, and other governmental funds. Property taxes are attributable to both new development as well as existing properties. The property tax extension directly attributable to the local property tax extension and levy increased by 7.84% for the levy year 2019. The overall levy rate for 2019 applied to each \$100 of assessed valuation, however, increased 4.7%, or 10.4 cents. The overall levy rate for 2019 applied to each \$100 of assessed valuation, however, increased 2.88%, or 6.2 cents. The disparity between the rate of extension increase and rate of levy rate increase is the result of an increased equalized assessed valuation (EAV) base. In prior year over year comparison, the amount extended increased 8.12% in 2018, and the levy rate by 6.2 cents. The EAV, which is the basis upon which property taxes are levied, increased in levy year 2019 for taxes to be paid in fiscal year ending April 30, 2020. The total increase in the 2019 EAV was \$9.0 million, compared to the 2018 EAV was \$14.5 million greater than the year before. This represents the sixth consecutive annual increase, following four prior years of declining EAV which preceded.

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

Newly developed and incorporated properties helped to mitigate the consequences to the changes to the values of existing properties, and lessen the tax burden on existing property owners. The various amounts levied for the employee pensions including Social Security have consumed a significant amount of the property tax levy, representing 48.5% of taxes levied in 2019, 47.9% of taxes levied in 2018, 45.8% of taxes levied in 2017. In fiscal year 2020 the levy for non-pension funds in aggregate increased by \$228 thousand to a total of \$3.7 million. In fiscal year 2019 the levy for non-pension funds in aggregate increased by \$135 thousand to a total of \$3.4 million. The prior year non-pension aggregates were: \$3.4 million (2018), and \$3.3 million (2017). The City responsibly fulfills its obligations pursuant to actuarial assessments received in the amounts necessary to appropriately fund its pensions both as to normal costs and amortizing current shortfalls, affording to the covered employees the benefits to which they are entitled, while prudently managing other expenses and levy requests to properly control the impact to local taxpayers.

Sales and Use taxes, which are a general indication of the overall vitality of retail operations within the taxing limits of the City increased by \$305 thousand, to \$6.8 million, or 4.7% after increased by \$321 thousand, to \$6.5 million, or 5.2% for fiscal year 2019, and increasing by \$192 thousand for fiscal year 2018. In prior years the changes were: a decline of \$33 thousand for fiscal year 2017 following increases of \$69 thousand in 2016 and \$199 thousand in 2015. This represents a 3.2% increase for 2018, a 0.5% decrease for 2017, a 1.2% increase for 2016, and a 3.5% increase for the fiscal year ended 2015.

Business-Type Activities (Primarily Water and Wastewater Treatment)

Program revenues from business-type activities increased by \$84 thousand, with total revenues of \$7.5 million for fiscal year ended April 30, 2020, as compared to an increase of \$146 thousand, with total revenues of \$7.6 million in the fiscal year ended April 30, 2019.

For fiscal year ended April 30, 2020, the business-type activities overall operated at a profit of \$1.2 million compared to the fiscal year ended April 30, 2019 which also operated at a profit of \$1.1 million. The City's municipal swimming pool operated at a deficit of \$85 thousand in 2020 after operating at a deficit of \$88 thousand in 2019, and a deficit of \$112 thousand in 2018. The City's Events Fund operated at a deficit of \$23 thousand in fiscal year 2020, following a deficit of \$47 thousand in fiscal year 2019, and a deficit of \$73 thousand in fiscal year 2018. The overall net assets attributable to business-type activities increased by \$1.2 million for the period ended April 30, 2020, increased by \$1.1 million for the period ended April 30, 2019, and increased by \$1.2 million for the period ended April 30, 2018.

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

THE CITY'S FUNDS

The following schedule presents a summary of general, special revenue, capital project, debt service, and permanent fund revenues and expenditures for the fiscal year ending April 30, 2020 as compared with the fiscal year ending April 30, 2019.

(\$000s)

	2020		2019	
	Amount	% of Total	Amount	% of Total
Revenues:				
Taxes	\$ 23,020	74.95%	\$ 22,381	75.94%
Intergovernmental	1,710	5.57%	728	2.47%
Charges for Services and Fees	1,478	4.81%	1,795	6.09%
Fines & Forfeitures	565	1.84%	609	2.07%
Licenses & Permits	613	2.00%	881	2.99%
Investment Income	59	0.19%	58	0.20%
Miscellaneous	3,267	10.64%	3,019	10.24%
Total Revenues	\$ 30,712	100.00%	\$ 29,471	100.00%
Expenditures:				
General Government	\$ 6,775	22.23%	\$ 6,927	25.18%
Public Safety	7,664	25.14%	7,569	27.51%
Public Works, Cultural, Parks, and Recreation	6,029	19.78%	4,820	17.52%
Community/Economic Develop.	7,889	25.88%	5,928	21.55%
Debt Service	730	2.39%	976	3.55%
Capital Outlay	1,395	4.58%	1,290	4.69%
Total Expenditures	\$ 30,482	100.00%	\$ 27,510	100.00%

Revenues from taxes increased by \$639 thousand for the period ending April 30, 2020 and represented 75.0% of the total revenues for governmental funds as compared to a \$1.3 million increase for the period ending April 30, 2019, representing 75.9% of total revenues. Revenues exclusive of taxes and intergovernmental receipts were approximately \$6.0 million for the period ending April 30, 2020 and were \$6.6 million for the period ended April 30, 2019. Revenue from intergovernmental sources increased in 2020 to \$1.7 million. Revenue from intergovernmental sources in the fiscal year ended April 30, 2019 was \$728 thousand, following fiscal year ended April 30, 2018 at \$1.8 million. Licenses and Permits declined in fiscal year ended April 30, 2020 was to \$613 thousand, compared to \$881 thousand in fiscal year ended April 30, 2019. Fines and forfeitures also declined to \$565 thousand from \$609 thousand for the period ended April 30, 2019.

Expenditures for governmental funds in total increased to \$30.5 million for the fiscal year ended April 30, 2020, from \$27.5 million for the fiscal year ending April 30, 2019. Total governmental fund balances, in aggregate, increased by \$109 thousand for fiscal year ended April 30, 2020 preceded by a decrease of \$1.3 million in the fiscal year ended April 30, 2019. They increased by \$461 thousand in the fiscal year ending April 30, 2018. The General Fund balance, in contrast, decreased by \$552 thousand in fiscal year ended April 30, 2020 which was preceded by an increase of \$543 thousand in fiscal year 2019.

(See independent auditor's report)

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

The General Fund balance at the end of the fiscal year, April 30, 2020 \$921 thousand compared to April 30, 2019 at \$1.5 million and April 30, 2018 at \$930 thousand. The General Fund is the City's main operating account. This General Fund ending balance represents approximately 18 days of average General Fund expenditures for the fiscal year ended April 30, 2020, compared to 33 days of average General Fund expenditures for the fiscal year ended April 30, 2019, and 21 days for the fiscal year ended April 30, 2018.

General Fund Budgetary Highlights

The City Council passed a budget based upon expectations of revenues and expenses. Current year resources available for appropriation to the general fund were \$1.5 million more than was budgeted. Actual revenues were \$1.1 million more than budgeted, and expenses were \$1.6 million more than budgeted, resulting in a deficit of \$526 thousand, for which reserves were adequate to cover.

The most significant diversion from both budgeted revenue and expense was a grant, in conjunction with an intergovernmental agreement with Ottawa Township High School District #140. The City secured a grant of \$1.1 million to assist in the elevation of the levee flood wall protecting both the high school and the East Side residents of the City, elevating a necessary portion of the levee to the same elevation as the remainder, thereby securing the public and facility safety of both the school and East Side properties. The grant amount, successfully received for the project since completed, passed through both the revenue and expense side of the balance sheet, and was not included in the budget at the time of its adoption.

Actual revenues collected were 106.5% of the amount budgeted, and exclusive of the levee project described above, was 100.1% of the amount budgeted. Overall taxes received were 101.5% of the amount budgeted. Property taxes received were 107.5% of the budgeted amount, State income taxes 104.6% of the amount budgeted, and corporate personal property replacement taxes only 35.2% of the amount budgeted. Additional, telecommunication taxes received were 84.8% of the amount budgeted. These areas in the aggregate primarily are the elements of the divergence of budgeted versus actual tax revenue. Other, more significant revenue differences were group insurance payments of 116.3 % of the amount budgeted, with contribution from the water and wastewater funds for health insurance expense. Ambulance fees were \$157 thousand more, 119.4%, of the amount budgeted, while non-emergency transfer revenue was \$401 thousand less, 44.8% of the amount budgeted.

Overall expenditures were 109.6% of the amount budgeted, but exclusive of the levee project, 103.2% more than budgeted. Noteworthy variances from budgeted amounts were health insurance and claims of \$489 thousand more, 113.6%, legal fees \$100 thousand more, 139.8%, police department \$109 thousand more, 102.6%, primarily from overtime compensation, public works repairs and maintenance \$366 thousand more, 132.0%, and fire department \$585 thousand less, 84.2%, primarily salary expense.

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

Approximately \$25 thousand was transferred to the General Fund from other City funds. The fund balance in the General Fund decreased as of April 30, 2020 by \$552 thousand, to \$921 thousand, after increasing as of April 30, 2019 by \$543 thousand, to \$1.5 million, and decreasing in fiscal year ended April 30, 2018 by \$542 thousand to a fiscal year ending balance of \$930 thousand. The General Fund is the main operating fund utilized to conduct the City's business. Additionally, the General Fund is the most significant accounting mechanism to record the City's activities, including all activity other than that which is required or appropriate to be recorded in other, specially identified, funds. To the extent that expenditures exceed revenues, it is necessary to utilize the City's reserves. The City's other governmental funds, exclusive of the General Fund, and including the various TIF funds, had balances in the aggregate of \$9.1 million as of April 30, 2020, \$8.4 million as of April 30, 2019, and \$10.3 million as of April 30, 2018. Overall, the City's governmental funds in the aggregate increased by \$109 thousand to a total of \$10.0 million for the period ending April 30, 2020. The property taxes collected and allocated to the various Tax Increment Financing Districts (TIFs) are primarily generated from new development that would likely not have occurred but for the creation of the TIF districts and the utilization of this mechanism as an economic development tool.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of April 30, 2020 the City reports a net position in governmental funds and activities of negative \$26.7 million, as compared to April 30, 2019 at which point the City reported a net position in governmental funds and activities of negative \$23.8 million, and as contrasted to a positive \$66.2 million as of April 30, 2018. The significant change from fiscal year ending April 30, 2018 and for the years ending April 30, 2020 and April 30, 2019 is, as noted earlier, primarily the result of the inclusion of long-term liabilities which are not due and payable in the current reporting period, specifically, for fiscal year ending April 30, 2020, \$51.7 million of net liability for the three City pensions, IMRF, Police, and Firefighter as actuarially determined by the entry age normal method of recording liabilities, plus the aggregate OPEB for post retirement health insurance benefits which are not funded through a separate trust arrangement, but rather paid as expenses are incurred and charged. Additionally, partially offsetting these liabilities is a positive recognition of deferred outflows in excess of deferred inflows in the aggregate amount of \$15.9 million also relating to the pensions and post retirement benefits.

As noted earlier, the total fund balances of all governmental funds was \$10.0 million as of April 30, 2020, and as contrasted to \$9.9 million as of April 30, 2019. Capital assets for governmental activities, which are not financial resources, were \$48.5 million net of depreciation as of April 30, 2020 and \$47.3 million as of April 30, 2019.

Including proprietary type funds and activities along with governmental funds, the City has a net position of \$3.9 million as of April 30, 2020, which was \$5.4 million as of April 30, 2019, and as contrasted to \$90.9 million as of April 30, 2018. Again, the significant change is in the governmental funds and activities with the recognition of current and future liabilities from the various benefit plans. The total assets net of deferred outflows of resources, as of April 30, 2020 for proprietary and business fund types was \$45.8 million, as of April 30, 2019 for proprietary

CITY OF OTTAWA, ILLINOIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending April 30, 2020

and business fund types was \$41.9 million, compared to \$38.3 million as of April 30, 2018. Capital assets only, net of depreciation, in the proprietary and business type funds and activities was \$42.7 million as of April 30, 2020, \$41.2 million as of April 30, 2019, and \$35.8 million net of depreciation as of April 30, 2018. Capital asset investments include land, buildings, improvements, machinery, equipment, and general infrastructure, and more specifically including, but not limited to, roads, bridges, water and wastewater treatment facilities, administration, storage, police, and fire station buildings, water and wastewater treatment lines, parks, and streets, police, fire, and emergency medical care vehicles and equipment.

This year's major additions included:

- Street and byway resurfacing, construction, repair, and improvements
- Machinery and equipment upgrades
- Water and wastewater treatment upgrades, extensions, and repairs
- Continued combined wastewater and storm water separation progress
- General infrastructure improvements
- Commencement of the Illinois-Michigan Canal re-watering project
- Participation in the East Side levee improvement project

More detailed information about the City's capital assets is presented in Note 3 to the financial statements.

DEBT

At April 30, 2020, the City has \$17.3 million in long-term debt from bonds and notes outstanding. As of April 30, 2019, the City had \$15.2 million in bonds and notes outstanding, as of April 30, 2018, \$17.4 million, and \$19.6 million as of April 30, 2017. Principal payments were paid as scheduled. The City serviced its debt as scheduled for the fiscal year ended April 30, 2020, but did not refinance any of the debt either in the current fiscal year or prior fiscal year ending April 30, 2019. In fiscal year ended April 30, 2020, the City incurred additional debt of \$3.7 million for infrastructure upgrades and repairs in the Water and Wastewater division. The City is limited by statute to indebtedness of no more than 8.625% of the most recently available value of the taxable property within its boundaries. As of April 30, 2020, the City had an additional \$15.1 million of capacity remaining in its legal debt margin. More detailed information about the City's debt is presented in Note 5 to the financial statements.

The City has no bond rating. Bond issues have generally been purchased and funded by local financial institutions, with some exceptions. The City's outstanding general obligation debt is below the state-imposed limit.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal year 2020-2021 budget, tax rates and fees that will be charged for the business-type activities. The City has experienced more recent increases in the assessed valuation of properties subject to taxation after a period of stable valuations. The City Council has endeavored to minimize necessary increases in tax rates while prudently managing the City's human and capital resources, and to fulfill the obligations to maintain an effective, efficiently operating, municipal enterprise providing public safety services through its police, fire, and emergency medical professionals, as well as maintaining, supporting, and improving when possible, its essential infrastructure. Emphasis has been focused on mitigating the fiscal burdens to local taxpayers by securing payment for services for those directly utilizing them, as appropriate, aggressively seeking and acting upon full and matching grant opportunities, and exploring alternative revenue sources in the effort to reduce reliance on local property tax revenue. In some circumstances priorities are affected by grant opportunities that are available from which the City can benefit. Financing rates are reviewed to take advantage of opportunities when present to better leverage the City's resources and limit servicing costs, while contractually ensuring that flexibility remains at the City's option for future opportunities to be realized. The City Council has attempted to responsibly manage the City's affairs, while providing a consistent, professional level of service, recognizing that the City's infrastructure is continually needful of repair and maintenance to ensure that it is effective and of benefit both to current residents and businesses. Further the City has committed to a proactive effort to encourage economic development and attract business enterprises to the community as evidenced by its development and expansion of the Ottawa Industrial Park, its extensive use of Tax Increment Financing Districts (TIFs), and utilization of enterprise zone incentives. These efforts benefit and provide opportunities for existing taxpayers, while providing and developing a vibrant and attractive community for new, prospective, taxpayers.

These indications were taken into account when adopting the General Fund budget for 2021. Amounts available for appropriation in the General Fund budget, including fund reserves, are \$19.0 million for fiscal year ending April 30, 2021. Amounts available in previous years were \$18.6 million for fiscal year ending April 30, 2020, \$17.3 million for fiscal year ending April 30, 2019, \$17.2 million for fiscal year ending April 30, 2018, and \$18.2 million for fiscal year 2017. General budgeted expenses were similar to fiscal year 2020, with controlled general wage increases relating to longevity and negotiated collective bargaining agreements. Of the three collective bargaining units, the Firefighters contract expires as of April 30, 2021, with status quo continuing pending the settlement of a successor agreement. The other two bargaining units, AFSCME and Police each have contracts expiring April 30, 2022, again with status quo continuing pending the settlement of successor agreements. Appointed personal are generally subject to annual contracts expiring at the end of each fiscal year.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional information, contact Shelly Munks, City Clerk, at 301 West Madison Street, Ottawa, Illinois 61350, 815-433-0161 extension 117.

CITY OF OTTAWA, ILLINOIS

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE
GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

April 30, 2020

	Governmental Activities
NET CHANGE IN FUND BALANCES -	
TOTAL GOVERNMENTAL FUNDS	\$ 109,123
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p>	
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense</p>	
Capital outlay	2,963,678
Depreciation expense	(1,713,382)
<p>Deferred outflows (inflows) of resources related to the pensions not reported in the funds.</p>	
Change in deferred items - IMRF	(1,961,176)
Change in deferred items - Fire Pension	4,306,280
Change in deferred items - Police Pension	(1,192,102)
Change in deferred items - OPEB	9,738,600
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of the governmental funds.</p>	
(Increase) Decrease in compensated absences payable	-
(Increase) Decrease in net pension liability - IMRF	2,179,139
(Increase) Decrease in net pension liability - Fire Pension	(5,339,274)
(Increase) Decrease in net pension liability - Police Pension	(60,315)
(Increase) Decrease in net pension liability - OPEB	(12,634,777)
(Issuance) Retirement of debt and capital lease	585,902
<p>Changes to accrued interest on long-term debt in the Statement of Activities does not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.</p>

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Ottawa, Illinois (the City) was incorporated in 1853. The city operates as a non-home rule municipality governed under the commission form of government consisting of a Mayor and four Commissioners. The City provides services to the community which includes: police, fire, water and wastewater utility, community development, street maintenance, transportation planning, and general services. The following significant accounting policies apply to the City and its component unit, the Ottawa Visitors Center.

a. Reporting Entity

The City follows accounting principles generally accepted in the United States of America established by the Governmental Accounting Standards Board (GASB). The financial reporting entity consists of the primary government, as well as its component unit, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

1. Appointment of a voting majority of the component unit's board, and either (a) the ability to impose will by the primary government or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
2. Fiscal dependency on the primary government and there is a potential to provide specific financial benefits or to impose specific financial burdens.

The accompanying financial statements present the City of Ottawa, Illinois (the primary government) and its component units. The financial data of the component unit is included in the City's reporting entity because of the significance of its operational or financial relationship with the City.

Blended Component Unit

A blended component unit is a legally separate entity from the City but is so intertwined with the City that it is, in substance, the same as the City. The City reports the Ottawa Visitors Center as a blended component unit.

The Ottawa Visitors Center was created May 1, 1998 to promote tourism in Ottawa. The City is represented on the Board of Directors by a Council Member or its representative. The City funds the Center with a provision of Hotel/Motel Tax Funds. Without this funding, the Center would not exist. The Ottawa Visitors Center is reported as a Special Revenue Fund. Financial Statements for the Ottawa Visitors Center at April 30, 2020 were compiled statements only. They are included with these financial statements as such.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a. Reporting Entity (Continued)

Discretely Presented Component Unit

A discretely presented component unit is an entity that is legally separate from the City, but for which the City is financially accountable, or whose relationship with the City is such that exclusion would cause the City's basic financial statements to be misleading or incomplete. The City has no discretely presented component units.

b. Basis of Presentation

Government-Wide Financial Statements - The government-wide statement of net position and statement of activities report the overall financial activity of the City and its component units, excluding fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities of the City. Interfund services provided and used are not eliminated on these statements. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) fines, fees, and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirement of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - The fund financial statements provide information about the City's funds, including its fiduciary funds. Separate statements for each fund category, governmental, proprietary, and fiduciary, are presented. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Basis of Presentation (Continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses include all expenses directly related to providing enterprise fund services. Incidental expenses are reported as non-operating expenses.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund and. The General Fund accounts for and reports all financial resources of the general government, except those required to be accounted for in another fund.

The North Tax Increment Financing District is funded by a property tax restricted for the transactions related to redevelopment projects along Interstate 80.

The City reports the following major proprietary funds:

The Waste and Wastewater System Fund accounts for the provision of water and sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund.

Additionally, the City reports the following fiduciary funds:

The Police and Firefighters' Pension Funds account for the accumulation of retirement and disability benefits for police and firefighters' pension plans.

The City reports the following nonmajor governmental funds:

The Special Revenue Funds are used to account for revenues received from specific sources which are required by law or regulation to be accounted for in separate funds.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Non-exchange transactions, in which the City receives value without directly giving equal value in exchange, include property tax revenue, grants, and other contributions. On an accrual basis, revenues from property taxes are recognized in the period for which the levy is intended to finance, which is the year after the taxes are levied. For example, the 2018 levy is recognized as revenue for the fiscal year ended April 30, 2020. Revenue from grants and other contributions are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on general long-term debt, claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales tax, utility taxes, motor fuel taxes, hotel/motel tax, food and beverage tax, E-911 surcharge, franchise taxes, ambulance fee, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Measurement Focus and Basis of Accounting

The City reports unavailable/unearned and deferred revenue on its financial statements. Unavailable/unearned and deferred revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Unavailable/unearned and deferred revenues also arise when the resources are received by the City before it has a legal claim to them or prior to the provision of services as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability or deferred inflow is removed from the financial statements and revenue is recognized.

d. Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

e. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Receivables

Receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include sales and use taxes, franchise taxes, grants, police fines, and ambulance fees. Business-type activities report utilities and interest earnings as their major receivables.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

h. Prepaid Items/Expenses

Certain payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses using the consumption method in both government-wide and fund financial statements.

i. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, drainage systems, storm water, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	25-50
Improvements	10-50
Machinery and equipment	3-20
Utility System	25-50
Infrastructure	25-50

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Compensated Absences

The City's policies regarding vacation time permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is not recorded as long-term debt in the government-wide statements. In the fund financial statements, no compensated absence liability is reported. This is not in accordance with generally accepted accounting principles.

k. Bond Premiums, Discounts, and Issuance Costs

In the government-wide and proprietary fund financial statements, bond premiums, and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums, and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

l. Fund Balance/Net Position

Governmental funds equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. Nonspendable fund balance is reported for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the City Council, which is considered the City's highest level of decision-making authority. Formal actions include ordinances approved by the City Council. Assigned fund balance represents amounts constrained by the City's intent to use them for a specific purpose. The authority to assign fund balance can be expressed by the governing body or by an official or body to which the governing body delegates. Any residual fund balance of the General Fund and any deficits in other funds, if any, are reported as unassigned.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Fund Balance/Net Position (Continued)

The City's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the City considers committed funds to be expended first followed by assigned and then unassigned funds.

As noted in GASB Statement No. 54, fund balance policies in the General Fund are reported as unassigned but disclosed in the notes.

In the government-wide and proprietary fund financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets, represents the City's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset. Unrestricted net position consists of net position that does not meet the definition of restricted or invested in capital assets, net of related debt.

m. Property Taxes

Property taxes are levied each year on all taxable real property located in the City. The City must file its tax levy ordinance the end of December of each year. The owner of real property on January 1 (lien date) in any year is liable for taxes of that year. Property taxes are collected by the County Treasurer of LaSalle County, Illinois, who remit to the City its share of the collection. Taxes levied for calendar year 2018 were due, payable, and collected in two installments in July and September 2019.

Revenue for property taxes is recognized in the governmental funds in the year for which the taxes are intended to finance and the funds are available. Accordingly, the City recognized revenue during the fiscal year ended April 30, 2020 for collections from the calendar year 2018 levy if it was received by year end. Property taxes levied for calendar year 2019, which will be collected in fiscal year 2021 are recorded as receivables and unavailable revenue.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditures) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

o. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditure/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all funds, except the fiduciary fund. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." The deposit and investments of the fiduciary fund are held separately from those of other funds.

The City and pension fund categorize fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The City deposits and invests in investments allowed by State Statutes. The Statutes authorize the City to make deposits in commercial banks, savings and loan institutions, and make investments in obligations of the U.S. Treasury and U.S. agencies, obligations of states and their political subdivisions, savings accounts, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds. Pension funds may also invest in certain other investments as allowed by Illinois Compiled Statutes.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

2. DEPOSITS AND INVESTMENTS (Continued)

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, Certain External Investment Pools and Pool Participants, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

It is the policy of the City to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statues governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, legality, safety of principal, liquidity, yield and public trust.

a. City Deposits

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the City's deposits may not be returned to it. The City will not maintain funds in any financial institution that is not a member of the FDIC system. In addition, City funds will not be maintained in any institution not willing or capable of posting required collateral, or purchasing private insurance for funds in excess of FDIC insurable limits.

b. City Investments

The following table presents the investments and maturities of the City's debt securities as of April, 30 2020:

Investment Type	Fair Value	Investment Maturities in Years			
		Less than 1	1-5	6-10	Greater than 10
Negotiable CD's	\$ 88,450	\$ 68,198	\$ 20,252	\$ -	\$ -
TOTAL	\$ 88,450	\$ 68,198	\$ 20,252	\$ -	\$ -

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

2. DEPOSITS AND INVESTMENTS (Continued)

b. City Investments (Continued)

The City has the following recurring fair value measurements as of April 30, 2020: Negotiable CD's are valued using quoted matrix pricing models (Level 2 input).

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the City limits its exposure to interest rate risk by diversifying its investment portfolio to minimize risk of loss resulting from overconcentration in a particular type of security, risk factor, issuer, or maturity. Commercial paper shall not exceed 10% of the investment portfolio.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The City limits its exposure to credit risk by primarily investing in external investment pools. Illinois Funds are rated AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the City will not be able to recover the value of its investment that are in possession of an outside party. The City's investment policy does not address custodial credit risk for investments. Illinois Funds are not subject to custodial credit risk.

Concentration of credit risk is the risk that the City has a high percentage of its investments invested in one type of investment. The City's investment policy requires diversification of investment to avoid unreasonable risk by limiting commercial paper to the 10% or less and at no time will the City's investments exceed 65% of a financial institution's capital and surplus.

c. Fiduciary Fund Deposits and Investments

Permitted Deposits and Investments – Statutes and the Fund's investment policy authorize the Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the highest classifications by at least two standard rating services, investment grade corporate bonds and Illinois Funds. The Fund may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, Illinois insurance company general and separate accounts, mutual funds, and corporate equity securities.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

2. DEPOSITS AND INVESTMENTS (Continued)

c. Fiduciary Fund Investments (Continued)

Police Pension Fund Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

Police Pension Fund Investments

The following table presents the investments and maturities of the Fund's debt securities as of April 30, 2020:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	More than 10
GNMA Obligations	\$ 44,943	\$ 1	\$ 546	\$ 15,361	\$ 29,035
Government Agency Bonds	3,815,043	830,330	2,100,705	884,008	-
Corporate Bonds	2,715,014	200,695	1,589,733	924,586	-
Mutual Funds	13,016,910	13,016,910	-	-	-
Total	\$ 19,591,910	\$ 14,047,936	\$ 3,690,984	\$ 1,823,955	\$ 29,035

The Fund has the following recurring fair value measurements as of April 30, 2020. The mutual funds are valued using quoted prices in active markets for identical assets (Level 1 inputs). The US Government Treasury and agencies and corporate bonds are valued using quoted matrix pricing models (Level 2 inputs). The Fund has no investments that are valued based on underlying investments (Level 3 inputs).

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Fund's procedures provide that to the extent practicable, investments are matched with anticipated cash flows.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Fund's investing activities are managed under the custody of the Fund President. Investing is performed in accordance with investment policies adopted by the Board of Trustees, complying with the Pension Code of Illinois. Government Agency Bonds are rated Aaa, Corporate Bonds are rated A1 – Aa3, and Mortgage Backed Securities are not rated.

Firefighters' Pension Fund Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

Firefighters' Pension Fund Investments

The following table presents the investments and maturities of the Fund's debt securities as of April 30, 2020:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	More than 10
Money Market Mutual Funds	\$ 853,669	\$ 853,669	\$ -	\$ -	\$ -

2. DEPOSITS AND INVESTMENTS (Continued)

c. Fiduciary Fund Investments (Continued)

Firefighters' Pension Fund Investments (Continued)

The Fund has the following recurring fair value measurements as of April 30, 2020. The mutual funds are valued using quoted prices in active markets for identical assets (Level 1 inputs). The mortgage backed securities and corporate bonds are valued using quoted matrix pricing models (Level 2 inputs). The Fund has no investments that are valued based on underlying investments (Level 3 inputs).

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The Fund's procedures provide that to the extent practicable, investments are matched with anticipated cash flows.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Fund's investing activities are managed under the custody of the Fund President. Investing is performed in accordance with investment policies adopted by the Board of Trustees, complying with the Pension Code of Illinois. Government Agency Bonds are rated Aaa, Corporate Bonds are rated A1 – Aa3, and Mortgage Backed Securities are not rated.

Concentration of credit risk is the risk of loss attributed to the magnitude of the Fund's investment in a single issuer. The City of Ottawa, Illinois, Police Pension Fund has the following investments which exceed 5% of plan net assets (Other than US Government Agency Obligations).

Investment Type	Amount	% of Plan Net Assets
Mutual Funds		
MSIF Growth Portfolio	\$ 2,021,409	15.05%
Exchange Traded Funds

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

The City contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system, the Police Pension Plan which is a single-employer pension plan, and the Firefighters' Pension Plan which is a single-employer pension plan. A separate report is issued for the Police Pension Plan and Firefighters' Pension Plan and may be obtained by writing to the City at 301 W. Madison Street, Ottawa, IL 61350. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by ILCS and can only be amended by the Illinois General Assembly.

The table below is a summary for all pension plans as of and for the year ended April 30, 2020:

	IMRF	Firefighters' Pension	Police Pension	Total
Net Pension Liability	436,699	31,845,163	19,428,929	51,710,791
Deferred Outflows of Resources	2,344,512	5,188,045	4,995,287	12,527,844
Deferred Inflows of Resources	2,879,894	2,172,557	2,238,772	7,291,223

a. Illinois Municipal Retirement Fund (IMRF)

Plan Administration

All employees (other than those covered by the Firefighters' and Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2019, IMRF membership consisted of:

Retirees and beneficiaries	96
Inactive, non-retired members	36
Active plan members	98
TOTAL	230

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

a. Illinois Municipal Retirement Fund (IMRF) (Continued)

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 year of IMRF service, divided by 48.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service.

Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 96 months within the last 10 years of IMRF service, divided by 96.

Contributions

As set by statute, the City's RP Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual contribution rate for calendar year 2019 was 7.96% of covered payroll.

Actuarial Assumptions

The City's net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

a. Illinois Municipal Retirement Fund (IMRF) (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date	December 31, 2019
Actuarial cost method	Aggregate Entry Age Normal
Asset valuation method	5-year smoothed market
Assumptions	
Interest rate	7.25%
Salary increases	3.35% to 14.25%
Cost of living adjustments	2.50%
Inflation	2.50%

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives.

For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that The City's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Inflows/Outflows of Resources

For the fiscal year ended December 31, 2019 the City recognized pension expense of \$157,493. At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 353,012	\$ 37,818
Changes in assumption	244,556	100,655
Net difference between projected and actual earnings on pension plan investments	1,746,944	2,741,421
Contributions after measurement date	118,422	-
TOTAL	\$ 2,462,934	\$ 2,879,894

\$118,422 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending April 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows of Resources
2020	\$ 5,477
2021	(120,112)
2022	173,847
2023	(476,172)
2024	-
Thereafter	-

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

b. Firefighters' Pension Plan

Plan Administration

The Firefighters' Pension Plan is a single-employer defined benefit pension plan that covers all sworn firefighter personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-1) and may be amended only by the Illinois legislature. The City accounts for the Firefighters' Pension Fund as a pension trust fund. The Firefighters' Pension Fund is governed by a board pursuant to Illinois Compiled Statutes (40 ILCS 5/4-1).

Plan Membership

At April 30, 2020, the measurement date, membership consisted of:

Inactive plan members or beneficiaries	
currently receiving benefits	40
Inactive plan members or beneficiaries	
entitled to but not yet receiving benefits	0
Active Plan Members	<u>29</u>
TOTAL	<u><u>69</u></u>

Benefits Provided

The Firefighters' Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

b. Firefighters' Pension Plan (Continued)

Benefits Provided (Continued)

Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for the pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% of ½ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the City to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the fiscal year ended April 30, 2020, the City's contribution was 75.82% of covered payroll

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

b. Firefighters' Pension Plan (Continued)

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed as of April 30, 2020 using the following actuarial methods and assumptions.

Actuarial valuation date	April 30, 2020
Actuarial cost method	Entry-age normal
Asset valuation method	Market value
Assumptions:	
Interest rate	6.25%
Salary increases	2.25 - 7.90%
Cost of living adjustments	2.25%
Inflation	2.25%

Mortality rates were based on rates developed in the L&A 2020 Mortality Table for Illinois Firefighters. Other demographic assumption rates are based on a review of assumptions in the L&A 2020 study for Illinois Firefighters.

Discount Rate

The discount rate used in the determination of the Total Pension Liability is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate. The rate used was 5.40%.

Cash flow projections were used to determine the extent which the plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the plan's projected net position, the expected rate of return on plan investments is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments. The plan's projected net position is expected to cover future benefit payments in full for the current employees.

Projected benefit payments are determined during the actuarial process based on the assumptions. The expected contributions are based on the funding policy of the plan.

c. Police Pension Plan

Plan Administration

The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The City accounts for the Police Pension Fund as a pension trust fund. The Police Pension Fund is governed by a board pursuant to Illinois Compiled Statutes (40 ILCS 5/3-1).

Plan Membership

At April 30, 2020, the measurement date, membership consisted of:

Inactive plan members or beneficiaries	
currently receiving benefits	29
Inactive plan members or beneficiaries	
entitled to but not yet receiving benefits	1
Active Plan Members	<u>36</u>
TOTAL	<u><u>66</u></u>

Benefits Provided

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% of compounded annually thereafter.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

c. Police Pension Plan (Continued)

Benefits Provided (Continued)

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index of 3.00% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3.00% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Covered employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plan and administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, the ILCS requires the City to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by 2040. For the year ended April 30, 2020, the City's contribution was 40.14% of covered payroll.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

8. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (Continued)

c. Police Pension Plan (Continued)

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed as of April 30, 2020 using the following actuarial methods and assumptions.

Actuarial valuation date	April 30, 2020
Actuarial cost method	Entry-age normal
Asset valuation method	Market value
Assumptions:	
Interest rate	6.50%
Salary increases	2.25 - 5.08%
Cost of living adjustments	2.25%
Inflation	2.25%

Mortality rates were based on rates developed in the L&A 2020 Mortality Table for Illinois Police Officers. Other demographic assumption rates are based on a review of assumptions in the L&A 2020 study for Illinois Police Officers.

Discount Rate

The discount rate used in the determination of the Total Pension Liability is based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate. The rate used was 6.39%.

Cash flow projections were used to determine the extent which the plan's future net position will be able to cover future benefit payments. To the extent future benefit payments are covered by the plan's projected net position, the expected rate of return on plan investments is used to determine the portion of the net pension liability associated with those payments. To the extent future benefit payments are not covered by the plan's projected net position, the municipal bond rate is used to determine the portion of the net pension liability associated with those payments. The plan's projected net position is expected to cover future benefit payments in full for the current employees.

Projected benefit payments are determined during the actuarial process based on the assumptions. The expected contributions are based on the funding policy of the plan.

9. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described in Note 8, the City provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the City and can be amended by the City through its personnel manual, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan does not issue a separate report. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The activity of the plan is reported in the City's governmental activities.

b. Benefits Provided

The City provides continued health insurance coverage at the active employee rates to all eligible retirees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance since the retiree does not pay an age adjusted premium. To be eligible for benefits, an employee must qualify for retirement under the City's retirement plan. The benefit levels are the same as those afforded to active employees. Once reaching Medicare age, retirees are covered by a Medicare supplement plan as opposed to the City's active employee health plan. For certain disabled employees who qualify for health insurance benefits under the Public Safety Employee Benefits Act (PSEBA), the City is required to pay 100% of the cost of basic health insurance for the employee and any eligible spouse for their lifetime.

c. Membership

At April 30, 2020, the measurement date, membership consisted of:

Inactive employees or beneficiaries	
currently receiving benefits	107
Inactive employees or beneficiaries	
entitled to but not yet receiving benefits	0
Active employees	<u>135</u>
TOTAL	<u><u>242</u></u>

d. Total OPEB Liability

The City's total OPEB liability of \$46,914,992 was measured as of April 30, 2020 and was determined by an actuarial valuation as of April 30, 2020.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

9. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Actuarial Assumptions and Other Inputs

The total OPEB liability at April 30, 2020, as determined by an actuarial valuation as of April 30, 2020 actuarial valuation, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial cost method	Entry-age normal
Inflation	Not applicable
Salary Increases	3.00%
Discount Rate	2.56%
Healthcare Cost Trend Rates	5.50% initial trend rate to 5.00% ultimate trend rate

The discount rate used in the determination of the total OPEB liability is based on the municipal bond rate. The municipal bond rate was based on the index rate for 20-year tax exempt general obligation municipal bonds rated AA or better at April 30, 2020.

IMRF Participants:

Mortality rates were based on the Sex Distinct Raw Rates as developed in the RP-2014 Study, with Blue Collar Adjustment. These rates are improved generationally using MP-2016 Improvement Rates.

Firefighters' Pension Plan Participants:

Mortality rates were based on the L&A Assumption Study for Firefighters 2020. These rates are experience weighted with the raw rates as developed in the PubS-2010(A) Study, with Blue Collar Adjustment. These rates are improved generationally using MP-2019 Improvement Rates.

Police Pension Plan Participants:

Mortality rates were based on the L&A Assumption Study for Police 2020. These rates are experience weighted with the raw rates as developed in the PubS-2010(A) Study, with Blue Collar Adjustment. These rates are improved generationally using MP-2019 Improvement Rates.

TOTAL	\$ 10,580,825

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; employee health; natural disasters; and injuries to the City's employees. The City maintains commercial insurance coverage for losses relating to liability (law, public officials, general and auto liability) and workers' compensation. The City is self-insured for employee health insurance. The City is insured with commercial insurers for stop-loss (\$80,000 per claimant, unless otherwise contractually stated) and aggregate loss claims (\$3,179,447 in the aggregate).

Management believes such coverage is sufficient to preclude an significant uninsured losses to the City. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reduction in insurance coverage from the previous year.

11. CONTIGENTS LIABILITIES

a. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

b. Litigation

There are several pending lawsuits in which the City is involved. Legal counsel of the City estimates that the potential claims against the City not covered by insurance resulting from such litigation would not materially affect future financial statements of the City.

c. Commitments

The City has ongoing capital projects in varying stages of completion which have not yet been approved for draw by the engineer and architect.

12. SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of the Auditors' Report, the date the City's financial statements for the year ended April 30, 2020 were available to be issued. There were no items of significance.

CITY OF OTTAWA, ILLINOIS
NOTES TO FINANCIAL STATEMENTS
April 30, 2020

12. SUBSEQUENT EVENTS (Continued)

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and financial position of the Village could be materially adversely affected. The extent to which the coronavirus (or any other disease or epidemic) impacts business activity or investment results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

CITY OF OTTAWA, ILLINOIS
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
April 30, 2020

1. BUDGETS

The Budget Ordinance is prepared in tentative form by the City, reviewed and approved by the City Council, and is made available for public inspection at least ten days prior to final Council action. A public hearing is held on the tentative Budget Ordinance to obtain taxpayer comments.

Prior to August 1, the Budget ordinance is legally enacted through the passage of a Budget ordinance. All actual expenditures contained herein have been compared to the annual operating budget.

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted for the general, special revenue, debt service funds, capital projects funds, and enterprise funds. All appropriations lapse at year-end.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. A proposed operating budget is submitted to the City Council for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted by the City to obtain taxpayer comments.
- c. Subsequently, the budget is used to develop the annual appropriation ordinance, which is the City's legal budgetary document. The appropriation ordinance is enacted through passage of a City ordinance.
- d. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue and debt service funds.
- e. Budgetary appropriations lapse at year-end.
- f. Transfers between line items, departments and funds may be made by administrative action, however, amounts to be transferred between funds would require City Council approval. The level of legal control is the individual fund budget in total.
- g. Budgeted amounts are as originally adopted on April 15, 2019, with the exceptions of City Council approved transfers which were not material in relation to the budgets taken as a whole.

In the General Fund, expenditures (\$18,666,362) exceeded budgeted amounts (\$17,031,742) for the year ended April 30, 2020.
