Local Landmark Nomination. 124 E. Van Buren Street. Commission discussed the application for 124 E. Van Buren. George Cary stated he was concerned with facts on the application but believes it's a good candidate for the designation. 1.) The application states built by John Hanifen. In the east side survey John Hanifen is listed as an architect. 2.) The application states John was Frank Lloyd Wright's apprentice. This fact is not listed anywhere in the east side survey documents. Commission suggested verification of these facts but wanted to move forward with the application. Moved by Bob Eschbach that the OHPC recommend that 124 E. Van Buren Street application for a local landmark be approved pending verification of the two items listed above. If no, then strike that information from the application. Seconded by Earle Lecki. All ayes. Motion passed.
